## ABOUT

I am a student at the University of Sheffield. I enjoy solving computational problems using the wide variety of tools at my disposal to solve all sorts of problems. I pride myself on my ability to help others who may be struggling with a concept or programming.

I can efficiently work as both a team and as an individual to produce work of an excellent standard. I always try to push myself to learn as much as I can.

## EDUCATION

2017 - Present

**Artificial Intelligence & Computer Science**  
*University of Sheffield*

Developing my knowledge in computer science and gaining life skills

2015 - 2017

**Advanced Levels**  
*Cheltenham Bournside & Sixth Form Centre*

Computer Science (A)      Further Mathematics (A)  
Mathematics (A)          EPQ (A)

## PERSONAL

**Facebook messenger chatbot**

Developing a chatbot for messenger groups, to increase productivity of groups and also have a bit of fun. It uses ideas provided from the community.

Java      Git      Selenium

## AWARDS

2018

**DBS Enhanced Certificate**  
*Disclosure & Barring Service*

2016

**Industrial Cadet Level 3 Gold**  
*EES (EDT)*

## SKILLS

### PROGRAMMING

Java ██████████  
HTML/CSS ██████████  
JavaScript ██████████  
Ruby ██████████  
PHP ██████████  
Haskell ██████████  
Python ██████████

### DESIGN

Photoshop ██████████  
Illustrator ██████████  
Fireworks ██████████  
Flash ██████████  
SketchUp ██████████  
Bootstrap ██████████  
Material ██████████

## EXPERIENCE

2018 (3 months)

**Plusnet**  
*Software Engineering Internship*

Working in a group of 6, to develop a project scheduling tool that would be used by domain managers.

Java      Git      Selenium      Group      JIRA

2018 - Present

**University of Sheffield**  
*Engineering Champion*

Working on many of the university events for young students and those looking at university options.

Communication

2016 - 2017

**PSK Architect**  
*Architectural Technician*

Working with architects to digitally construct their concepts, allowing clients to visualise the construction

Communication      SketchUp

2015 - 2016

**Engineering Education Scheme**  
*Lead programmer & co-manager*

As a group of 3, developing a project on a gesture controlled vehicle. Working with Ultra Electronics

Python      Group
